**PBCMS/HERC Opioid Task Force**

PBCMS and the Healthcare Emergency Response Coalition convened an Opioid Task Force this week. The purpose of the Task Force is to educate and raise physician, hospital, healthcare provider and community awareness. The task Force discussed the critical need to discuss how to support comprehensive treatment for pain and substance abuse disorders, provider education and prevention strategies. For additional information contact John James, Director of Public Health & Disaster Services at johnj@pbcms.org.

Congratulations!
Acevedo Consulting Incorporated announced that Associate Consultant, Joanna Bennett, recently achieved the designation of Certified Risk Adjustment Coder (CRC). The CRC credential is awarded by the AAPP, the world’s largest credentialing organization for the business of healthcare. To be awarded the CRC credential, applicants must prove, by rigorous examination and experience, that they know how to interpret a medical chart and assign accurate diagnosis codes for a wide variety of clinical cases and services for risk adjustment payment models such as HCC, CDPS, and HHS Risk Adjustment. As Medicare and other health insurers move to paying health care providers based on value and outcomes, risk adjustment coding knowledge has become increasingly important if physicians are to be properly reimbursed based on the complexity of the patients they treat. Bennett assists physician practices, healthcare organizations, attorneys and hospitals on a daily basis through Acevedo Consulting; a Delray Beach consulting firm specializing in the labyrinth of reimbursement, coding and regulatory compliance issues facing the healthcare industry today.
